

ABSTRACT

5 METHOD FOR *IN SITU* REPAIR OF INJURED, DAMAGED,
 DISEASED OR AGED ARTICULAR CARTILAGE

 A method for treatment of injured, damaged, diseased or
aged articular cartilage using neo-cartilage constructs
10 implanted into a joint cartilage lesion *in situ*. The
implantation of the construct initiates and achieves
incorporation of neo-cartilage into a native surrounding
cartilage including a formation of a new superficial cartilage
layer overgrowing and sealing the lesion in the joint cartilage.
